AND...

The Mangat's remarkable home; a converted dairy barn, featured on the cover of BEST magazine:

"A dairy barn canvas is Felicia's masterpiece..."

'It was like falling in love,' says Felicia when she saw the barn, two-thirds of which was decorated in typical 70s style while the remaining third was completely unfinished. 'I knew I could make it fabulous.'"

And make it fabulous, she did! Two years in the making, the barn has been transformed into expansive rooms which Mary Beth Crocker describes as "comfortable, charming and sophisticated," while still maintaining its historic origins. Lucky guests of *Friends, Food, Flowers & Fashion with Farmhouse Flair!* will be able to tour all of the Mangat's exquisite home and grounds, complete with a Victorian-style conservatory and two-story cottage, both built in the 1930's.
