Problem Areas:

All youth require constant staff supervision, either in person or thru cameras.

Corrective Actions (Immediate):

The facility needs additional cameras in buildings and areas that aren't covered by cameras. All youth will remain in line of sight in person supervision until enough cameras have been installed, to monitor high level youth thru cameras.

Corrective Actions (Ongoing):

These cameras began to be installed in July 2020, and will be installed in 3 phases. The first two phases are planned to be completed by January 1, 2021.

Previous Year's Data and Corrective Actions (Comparison) & Assessment:
